

19th October 2020

Dear Parent/Carer,

A number of parents have contacted school regarding the Teenage booster vaccination which their daughter should have received in Year 9.

I can happily say this vaccination will be taking place in school on **Wednesday, 9 December 2020**. We currently have 110 outstanding forms which will need to be returned to school if you wish your daughter to have this vaccination. I would also ask you to return the vaccination consent form with the relevant **DO NOT CONSENT** section completed if you do not wish your daughter to receive this injection. This will avoid student services and the immunisation team unnecessarily contacting you before the vaccination date.

I completely understand that the forms were sent out prior to the school closure and some may have been misplaced. If you would like a new form sent home with your daughter, please contact the medical room or form tutor and we can organise it. We will remind you nearer the date of what action needs to be taken by your daughter.

If you have any questions regarding this vaccination then please contact the Immunisation Team on 01273 696011 ext 8100

Kind regards

Student Services Team
