

CASHLESS CATERING IN THE DINER

Food is purchased in our Diner and Refectory using our biometric system. This involves recording a biometric measurement of the student's finger with parental consent. Once this is done, you will receive information on how to set up an online account which can be topped up at your convenience. Food is then purchased by presenting your finger to the electronic reader at the till. The appropriate money will then be deducted from your account.

The system provides:

- A secure method of paying for food, without the need to bring cash into school;
- A method for parents to pre-load accounts online and monitor and view transactions;
- A non-identifiable system for students receiving free school meals as their allowance is added automatically;
- Speedy service at the tills, reducing queues.

BREAKFAST CLUB

8.00 – 8.35am every morning in The Diner

Breakfast Club offers...

- Enjoyment of a nutritional breakfast in a relaxed atmosphere;
- A helping hand to energise and motivate our students getting them ready for their day;
- A safe and secure space in which students and teachers can discuss every day issues that are important to them.

Breakfast Club is an important part of the school day for many students and staff. We offer a varied and healthy breakfast menu to students and staff.

Items for sale include:

Fresh fruit pots	Yoghurts	Flavoured milk cartons
