

22nd November 2021
Year 10/11 only

Dear Parent/Carer,

I am writing to offer you the opportunity to buy the following Mathematics revision aids for the AQA Linear exam that your daughter is sitting next June or the following June:

Revision Guide / Workbook / Exam Practice Workbook / Targeted 4/5 or 8/9 Workbook

These are available through CGP books and can be viewed online, if further information is required (www.cgpbooks.co.uk).

If you purchased the text book last year, or prefer to use our recommended online resources, such as DFM, Hegarty or CorbettMaths, please do not feel it necessary to purchase these additional resources.

In terms of the tier to purchase, ordinarily students in set A and set B and some of set C follow the Higher tier and the other sets follow the Foundation tier. However, at this time tier of entry has not been decided and decisions are not made until the January of Y11. Your daughter should speak to her mathematics teacher if she is unsure of what tier to purchase.

The Items available are as follows:

Please do not order everything as there are many choices and these will have been explained by your daughter's Maths teacher. Please only order the resources that are suitable for her needs.
