

Children and young people aged 18 and under with a positive COVID-19 test result should try to stay at home and avoid contact with other people for 3 days, which is when they are most infectious. After this time, they should return to school unless they are not well enough. For those children who feel well during their absence, schoolwork can be accessed via the FROG platform under 'Continuity of Learning' or online [via this link](#).

Children and young people who are unwell and have a high temperature should stay at home and avoid contact with other people. They can go back to school when they no longer have a high temperature, and they are well enough to attend.

There is no longer a requirement to notify the school via the Covid-19 email address, instead please report your child's absence via study bugs in the usual way [via this link](#).
